

This will call up the entire MusAcom library. Give it a few moments to access the information. You will likely wish to start here.

This tiny button will remove the task bar immediately to its left.

This button features a drop-down box that includes song lyrics!

These three buttons allow you to change the abstract scenes that run while the audio is playing.

This is the audio control panel. It works exactly like your home stereo or walkman.

Something different? This will change the "skin" of the machine. Use "Skin chooser" to select the style you want.

This button will add/remove the box below it. The graphic then expands to cover more of the screen.

This is the button that brings up the screen that is pictured here. This is perfect for browsing and listening to repertoire. Make sure the drop-down box on the upper right says "All Audio". There are many other features...try them all!!

MusAcom Quick Tips

If you ever get lost, confused, or stuck, re-start the machine and it will reset itself.

You will quickly notice that the iStation is a complicated machine with an almost endless number of features and settings. The best way to learn about them is to play with them.
